

# TOP TIPS

## Set up your online fundraising page

This is an easy way to start fundraising right away! Personalise your page with photos and a little blurb about you and then send the link out to your friends and family and ask them to donate!

## Create your fundraising dream team

Get your friends on board to help organise your fundraiser.

## Tell everyone

Tell everyone your story, it's unique to you and makes you special!

A great way to get the word out is by hanging posters or flyers around your workplace or school.

Our fundraisers find that when they share why they are fundraising for the National Breast Cancer Foundation to their friends, families and colleagues, they are more successful in getting donations.

## Get the office involved

Let your company know about all of your good work and make it easy for them to get involved. You could bring baked goods in and sell for a gold coin donation.

## Dollar matching

Ask your employer if they will match what you raise.

Some companies may not dollar match, however you might have inspired them to give you a tax deductible donation!

## Ask local businesses for a donation

The less you spend, the more you can raise!

See what local businesses can do to pitch in whether it is the bread for the BBQ, balloons for the party or the use of the venue, it all helps.

## Thank everyone!!

Always thank the generous people who have donated to you. Make it as personal as you can whether it be a big or small donation, every dollar will help us achieve zero deaths from breast cancer by 2030.
